

Schools will not participate in community activities such as poster and/or essay contests sponsored by any organization without approval by the Superintendent of Schools or the building principal.

The decision to approve or disapprove requests for school participation will be based on the following factors:

1. The educational value of the activity to the students
2. The amount of time required from regular school activities
3. The number of similar requests received by the school
4. The relationship to the school district's instructional objectives.
